

## DECK TILES JE-GRASS

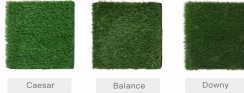

INTCO Deck Tile is made from high density recycled plastic composite materials. The natural grass appearance provides you and your family with the satisfaction of enjoying new indoor and outdoor living spaces. You don't need any tools or experience, you can just simply line-up each tile and snap together...

### Advantage

- **Easy to install**  
Interlocking tile structure, kids can even do it easily.
- **Weather resistance**  
Anti-ultraviolet, the service life is 7-8 years.
- **Lifelike**  
Multi-color compound, the appearance is close to the natural grass.
- **100% Eco-friendly**  
Without heavy metals.
- **Applications to Multiple Scenes**  
Install over concrete, patio stone or any solid substrate.
